**1. Restricted Entry of Automobiles:**

To prevent vehicles entering the campus, our college has established no entry for automobiles. The college has a group of buses with CCTV cameras and GPS devices attached to facilitate students and staffs from different localities. It encourages them to use the college transport instead of their own vehicles. This initiative adopted by the college helps in providing safety, security, reducing environmental pollution and fuel consumption.

**2. Use of Bicycles:**

Students who are coming from near-by places prefer bicycles as their mode of transport to reach college on time. This is an environmental friendly and volunteer initiative by the students to prevent air pollution.
