7. 2 BEST PRACTISE

1. Title of the practice: "Leaving No One Behind: The Pursuit of Education to all"

The context

Education plays an important role in developing the foundation of personal, economical and societal growth of a person. It is education that gives a person knowledge, skills, cognitive abilities, communication, problem solving, time management and other essential abilities to make him successful in his life. Education helps in creating responsible citizens. It is important to provide education to every section of the society. Vishwa Chethana degree college aims to provide education to all by taking in rural students and reducing their problems like accessibility, high cost of tuition fee, transportation etc. Vishwa Chethana degree college follows no entrance testes or acceptance criteria for students which gives Which gives an opportunity to students who have scored less marks also to Pursue their higher education. College also provides affordable fee structure transportation facilities and an inclusive environment to make every student welcomed in the college.

Objectives of the practise

1. To provide access of Education to everyone
2. To encourage higher education among rural students
3. To enhance the personal growth of rural students
4. To facilitate betterment of society through education

Practice:

College provides Encouraging rural students

As the college is situated in the rural area gives easy access to rural students for higher education. College provides transportation facilities to the rural inaccessible areas where students can safely travel to college.

Providing Access to higher education:

College does not discriminate between advanced learners and slow learners. No private exams are conducted or cutoff rates are fixed for admission of the students. Supplementary students are also given an opportunity to pursue their higher education.

Differentiated work to different class of workers:

To help the slow learners to improve differentiated works are allotted. Slow learners are identified and given special attention, important questions, Question banks and assignments to help them improve in academics.

Grouping arrangements for learners with different needs: Special groups are formed in a class where an advanced learner helps few slow learners to understand the topics discussed in the classes, complete the assignments and help them in their learning process.

Evidence of success

- Increase in intake of rural students
- Increase in the number of girls taking the admissions from rural areas.
- Improvement in the results of slow learners.
- More supplementary students are continuing higher education.

Problems encountered and Resources required

- Need more dedicated staff and students to help the slow learners
- Need more financial support to accept all the applications from students.
- Need more open-minded educators.
